

# LElCedin

Group project for the Human Computer Interaction class

## Faculty

- Rui Rodrigues (lectures)
- Teresa Galvão (recitations)

## Students (G101)

- Alexandre Nunes (202005358)
- Gonalo Pinto (202004907)
- Guilherme Magalhães (202005285)

# Description

LEICedin is an app to help students find employment and housing, **in the first prototype we only implemented housing features.**

## Implemented features

Add job/room posting  
Search room  
Order/filter room  
Register, login and logout

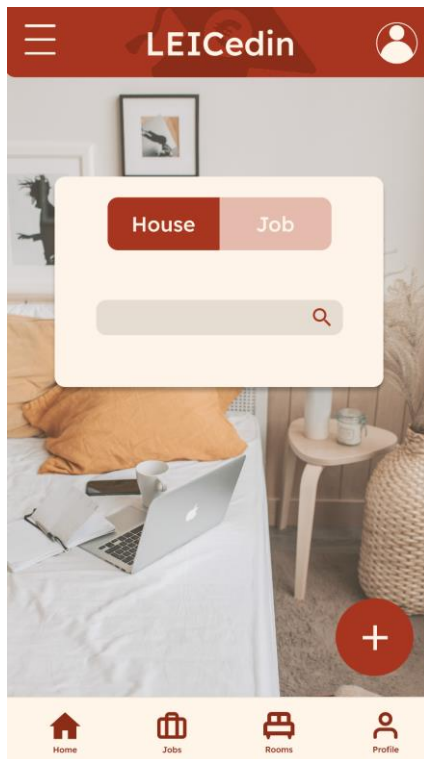

**Focus**

## To be implemented next

Remove job/room posting  
Search job  
Order/filter job  
See details of job/room posting

# Search Housing

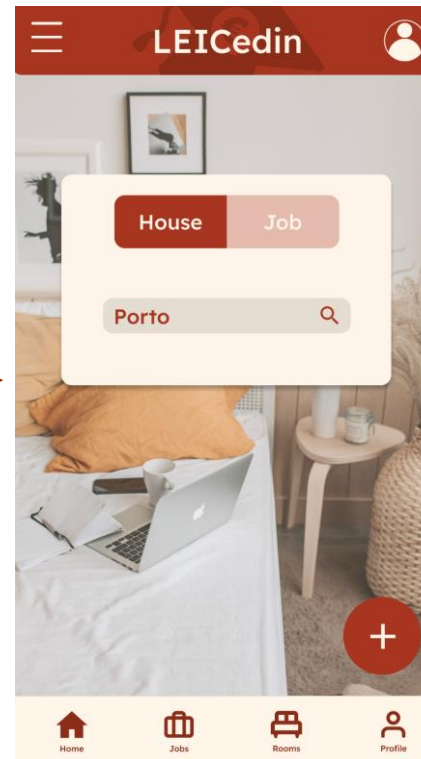

SCR-01

Home Page

Write keywords to  
search bar

SCR-02

Home Page with  
info filled

Tap search button

SCR-03

Housing Page

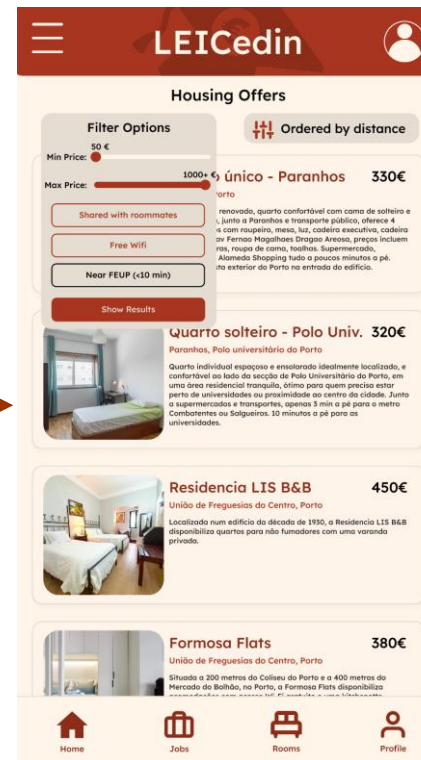

# Filter Offers

Order Results

# Add Offer

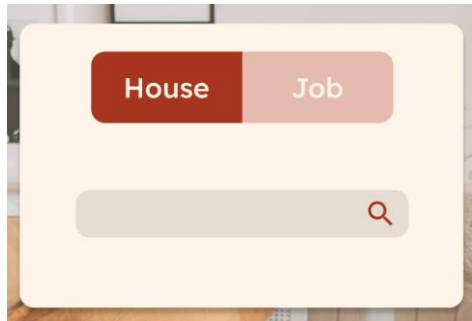

# Heuristic Evaluation Results

Issue	Heuristic	Severity
Small font	6, 1	3
Only ascending order available in search results	3	3
No search bar in housing section (only available at the home page)	7	1
No explanation or placeholder text on search bar	5, 10	1
Lack of attributes when adding offer (example: image)	2, 3	3
No indication of current page in the footer	6	2
Redundant navigation options	8	3

# Heuristic Evaluation Results

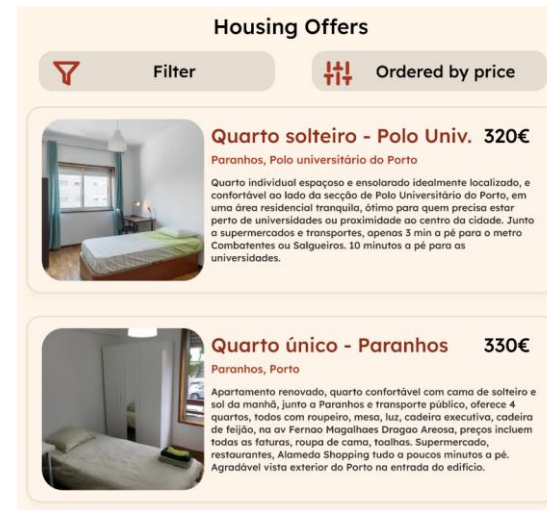

No label or placeholder text on search bar

## Contact Info

Email emailname@email.com  
Phone number 93123456789

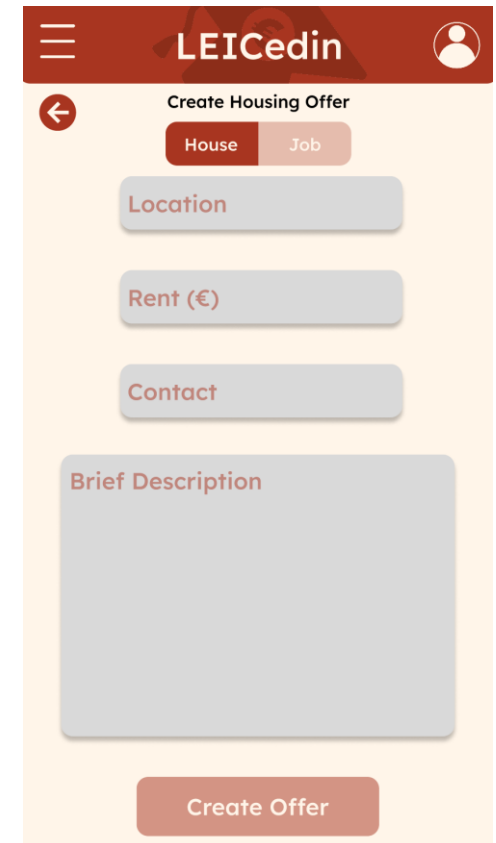

Small font (size 7)

No search bar and only ascending order available

No footer indication of current page

No add image option on create

# Corrections

## Navigation

No menu

Footer will have current  
page highlighted

More context dependent  
navigation buttons

**Less options**

**More polish**

## Search Page

Add search bar

Add create offer button

Highlight more selected  
filters

Replace small font with  
normal sized grey  
transparent font

## Not adding

Ascending and  
descending sorting

More filter options

**Too much clutter!**

## Add offer

Add image upload

Remake the boxes so that  
it is clear their size doesn't  
limit the size of their  
content

Add preview option
